

# Concrete Structures of the Midwest, Inc.

## Project Profile

### 121 West Chestnut Apartments

Developer:	Lasalle/Chestnut, LLC
General Contractor:	Turner Construction
Architect:	Perkins, Pryde, Kennedy & Steevensz Architects, Ltd.
Structural Engineer:	A. Epstein & Sons
Location:	121 W. Chestnut Street Chicago, Illinois
Type of Structure:	High Rise Residential

One Twenty One West Chestnut is a 37 story residential/parking structure, including five levels of parking and 32 levels of residential units. This structure features exposed (painted) architectural concrete.

Concrete Structures completed all formwork, reinforcing and concrete above the caisson level, achieving a five day pour cycle on typical levels. This project was completed on time and on budget.
