

Concrete Structures of the Midwest, Inc.

Project Fact Sheet

Northern Illinois University Convocation Center

Developer:	Northern Illinois University
General Contractor:	Turner Construction
Architect:	A. Epstein & Sons, Int.
Structural Engineer:	A. Epstein & Sons, Int.
Location:	1525 W. Lincoln Highway Dekalb, Illinois
Type of Structure:	Stadium

Northern Illinois University's new Convocation Center is a 10,000 seat stadium, and 210,000 sqft event center. The design featured a 1000 linear foot ring beam, that supports the entire structure.

In addition to the ring beam, Concrete Structures completed all site concrete, slab on metal deck, and all concrete finishing. Concrete Structures called upon its experienced staff to complete this complex project on time, and with precision and quality.
