

# Concrete Structures of the Midwest, Inc.

## Project Profile

### Optima Horizons

Developer:	Optima, Inc.
General Contractor:	Optima, Inc.
Architect:	Optima, Inc.
Structural Engineer:	Thornton-Tommasetti Engineers
Location:	800 Elgin Road Evanston, Illinois
Type of Structure:	High Rise Residential

Optima Horizons is the latest of several new residential developments in downtown Evanston. The project consists of four above grade levels of parking and twelve 30,000 square foot residential levels. The design includes a terrace at the 5th floor, a ground level swimming pool, and an open plaza at the north end of the property. The building entrance plaza will include a fountain and reflecting pool.

Concrete Structures is responsible for all cast in place concrete work above the caisson level. The project is progressing through the winter months at a rate of one full level per week. This project is projected to be completed on time.
